**Facilitation of Aadhaar Seeding and ABHA No. Generation
(IP and their Dependents)**

Overview

- The Purpose of seeding the Aadhaar, it has been identified as a potent tool to facilitate various services based on biometric authentication of the person/citizen having Aadhaar number from UIDAI data base.
- Currently, Aadhaar seeding facility is available only in Insured Person login.
- The purpose/benefits of seeding the Aadhaar number and display the Aadhaar Status in ESIC Panchdeep Application are mentioned as below-
 - To prevent the fraudulent activities in financial transactions.
 - Aadhaar Status can be used to merge the contribution of duplicate Insured person.
 - Aadhaar Status can be used to perform the e-KYC; post e-KYC system will have the UIDAI verified demographic details of the beneficiaries.
 - Aadhaar Status can be used to authenticate the beneficiaries at the time-of-service delivery.
